Commissioners,

All Individuals speaking on behalf of themselves or a small ad hoc group should be heard first.

Second would be all organized groups or individuals representing groups such as NALEO/LOWV/Common Cause etc. with or without prepared presentations.

Third should be anyone who has previously presented with the caveat that they should highlight any differences from their prior comments.

You also need to be careful to identify persons speaking on the same topic/area/COI so that they can be handled as an "organized group".
