Commissioners,

It occurs to me that you need some advance warning to identify the organized groups planning to attend and present at both the NorthRidge and Richmond meetings.

Perhaps your communications director can issue the invitation to those known groups and a media sweep to catch the remainder. AND ... in the process not only identify them, but determine HOW MUCH TIME they will need for their presentations and establish an APPOINTMENT for each of them within the framework of your agenda for each of these sessions.

Thanks,
