Subject: 23rd Congressional District boundary lines
To: votersfirstact@crc.ca.gov

Dear Citizens' Redistricting Commission,

I urge you to look closely at the current 23rd Congressional District boundary lines (attached). You should mark it as an example of precisely what should **NOT** be done in the future. It clearly protects one political party over another and violates the principle of equal representation while ignoring connections between existing County, City, and natural boundaries.

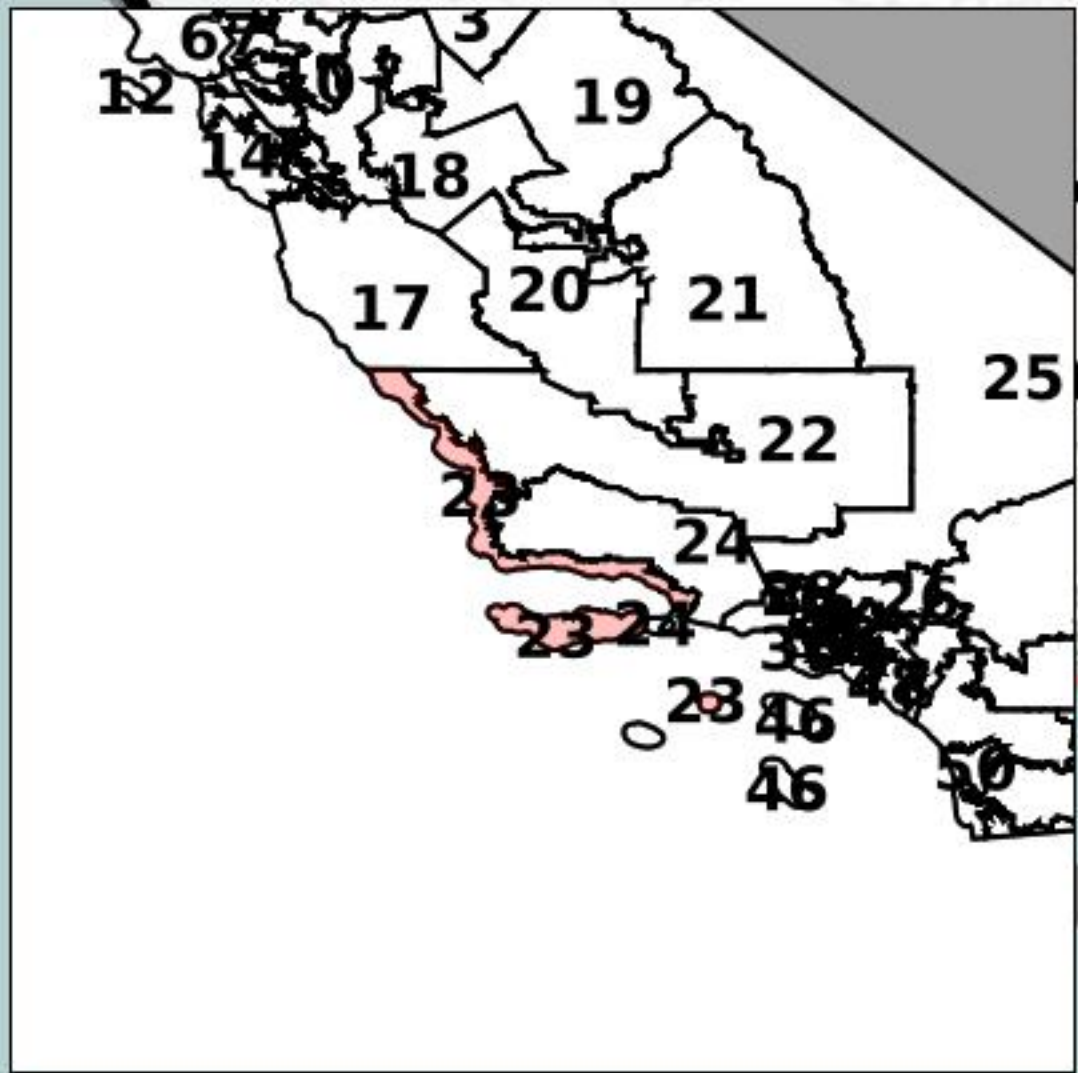

Good luck!

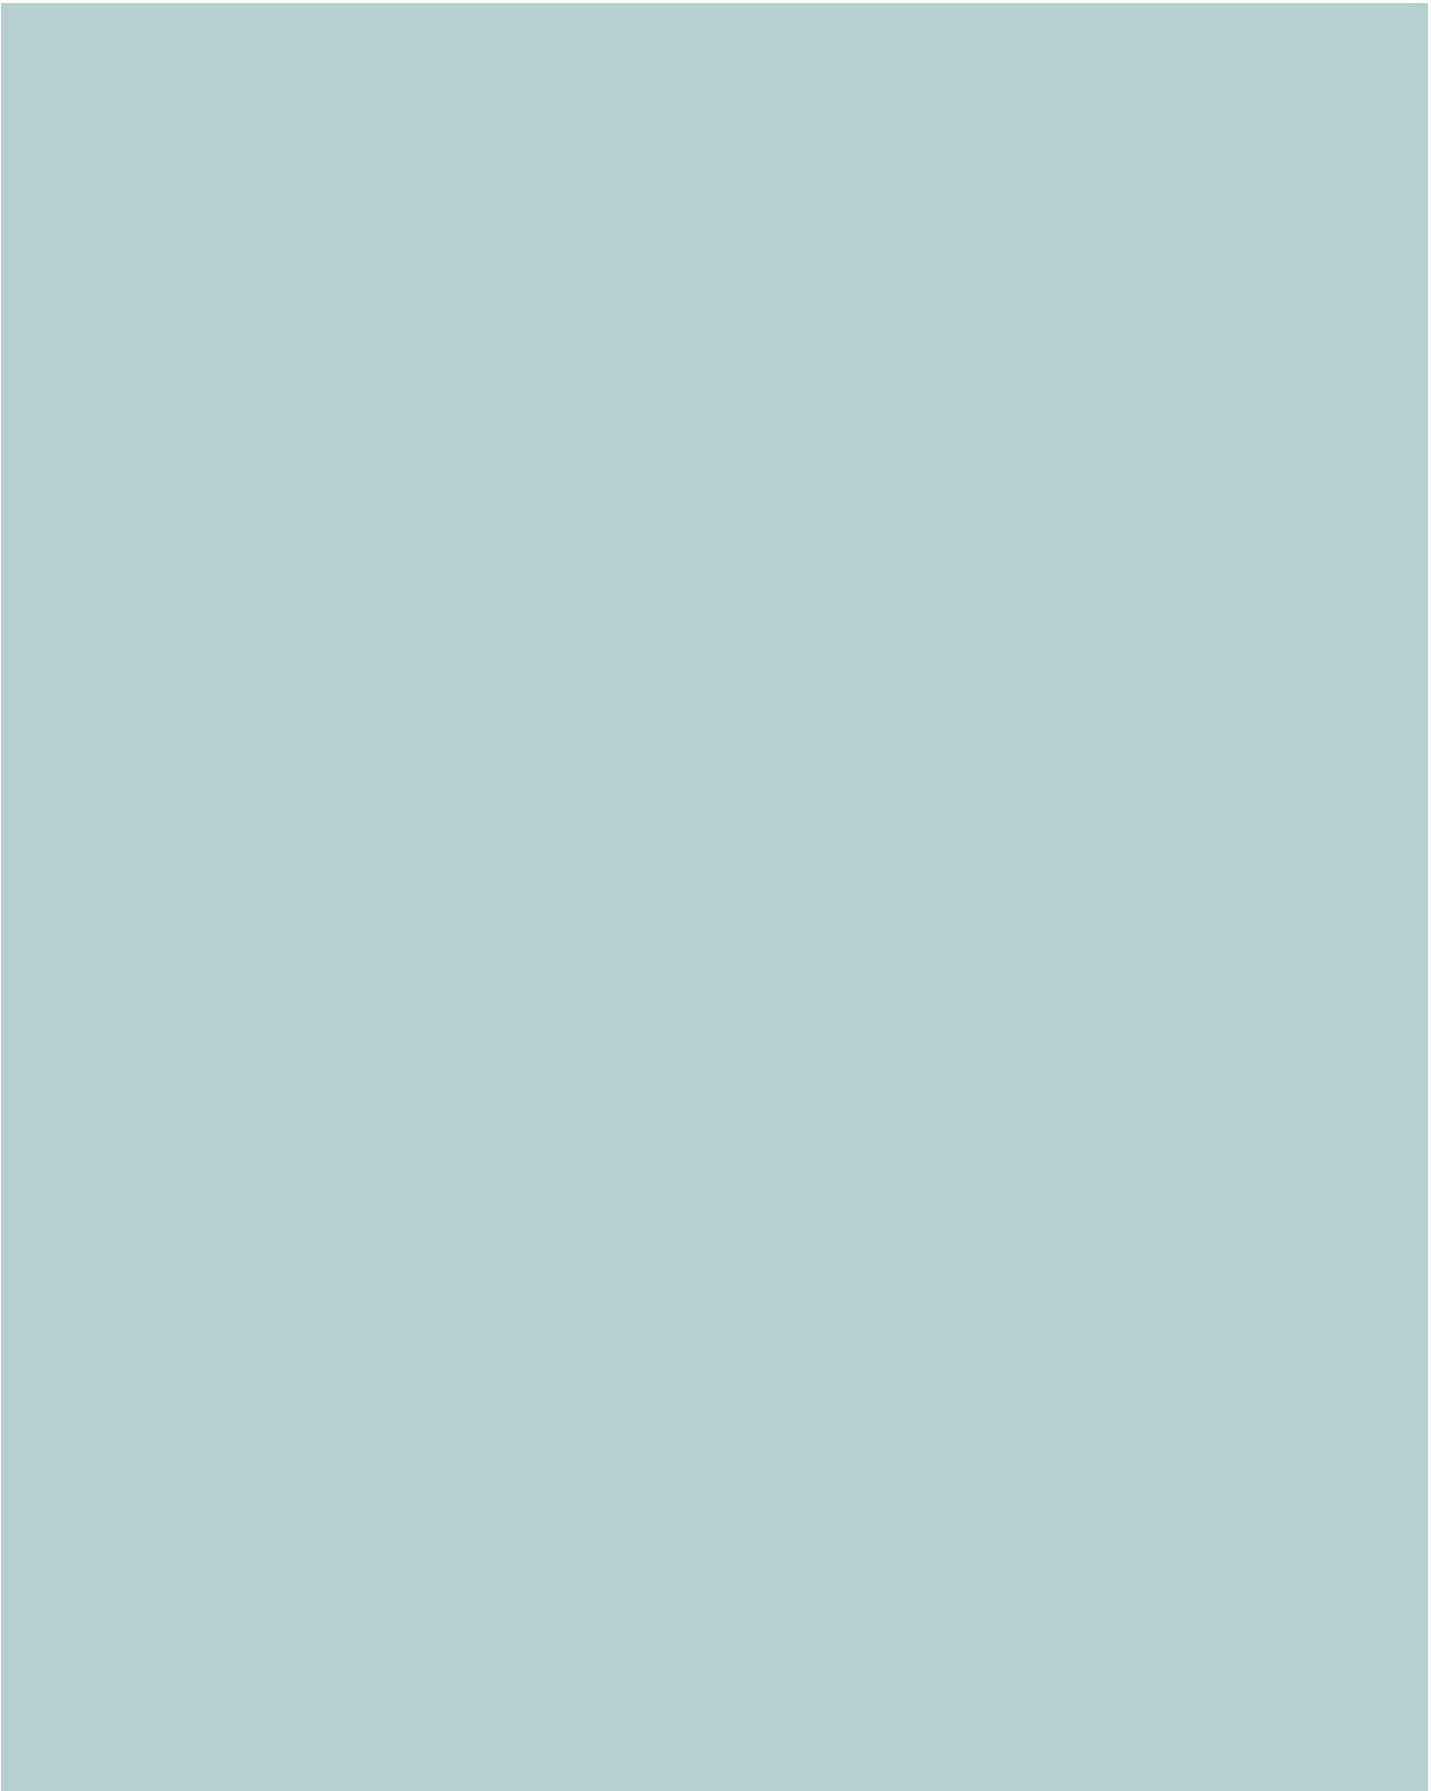

Sincerely,

-Kenan Ezal
