I would like to commend each and every one of you as you have a daunting job ahead of you. I have been listening to both hearings, as well as some of the meetings you held recently. With that said, I am very grateful with your sincere suggestions to the public, as it seems some may not have been paying as close attention to this process as I have. I have spoken to some who have read bad press regarding you as a group and have spoke highly about the process that has been so transparent and available to the public and encourages public participation and I always suggest they too become involved in the process.

I look forward to possibly meeting with some of you during your visit to Santa Rosa, CA. Many blessings to all of you.

Mahalo
