Subject: PUBLIC COMMENT - Marysville meeting summary
Commissioners,

My observations:

- Primary agreement was for a north-south orientation as opposed to east-west as was supported in Redding.
- Sutter-Yuba-Butte are closely intertwined in a great many ways and need to stay together. Possibly with Colusa and Glenn.
-
- More common interest if you keep agricultural areas together.
-
- There are language isolations. Some of those groups are Hispanic, Hmung and Sikh. They are more difficult to reach.
-
- Close neighbors/partners in current enterprises are important.
- Best quote: Foothill people want to be "above the fog and below the snow".
