I live at [REDACTED], near Monterey in SD15.

Our two special elections in 2010 showed the silliness of a district that stretches from Santa Clara to Santa Barbara Counties. While the southern, rural parts of Monterey County may have some few commonalities with SLO County, the Monterey Peninsula has much more in common with Santa Cruz County.

Please consider a district that make sense - one that ties Santa Cruz and northern Monterey Counties together, without the dissimilar counties to the south.

Thank you.
