To the Citizens Redistricting Committee.

I was disheartened to learn today that a meeting was held regarding Senate District lines involving San Los Obispo, Monterey and Santa Cruz Counties, where much of the feedback detailed that current Senate District 15's boundaries should stay as they are, and incorporate Santa Cruz and Monterey Counties with San Los Obispo and Santa Barbara.

Current lines for this Senate district make no sense. Santa Cruz County is a community that shares business, education, healthcare, social service and environmental interests closely with Monterey, Santa Clara, San Benito and San Mateo Counties, but NOT San Luis Obispo County.

As a CA voter in Santa Cruz County, I would very much like a Senate District drawn so that my community and I are actually a part of a district that adequately represents us. Please consider this as you make your district line decisions. Santa Cruz belongs with Monterey, Santa Clara, San Benito and/or San Mateo Counties. Not San Los Obispo.

Sincerely,

Adam Spickler
