votersfirstact@crc.ca.gov

Dear Commissioners,

As a resident of San Joaquin County and an LGBT activist I ask that you please keep San Joaquin County whole.

While the LGBT community within San Joaquin County share similar goals with our brothers and sisters in the Bay Area and the Sacramento area (like civil and human rights) our economic and cultural interest couldn't be more different and that is why we ask the commission to please keep San Joaquin County whole.

An example of our differences: Our annual AIDSWalk charities. For every \$10 raised to care for a single patient in the County of San Francisco, only \$1 is raised in San Joaquin County. The disparity could mean the difference between life and death.

San Joaquin County now has almost 700,000 residents after the 2010 census. That's enough population for one full State Senate seat, a Congressional representative, and two Assembly districts. These districts must be in San Joaquin County so that we have elected officials who focus on representing our needs.

Thank you for your consideration and please see the attached maps for more detailed information about our County.

Sincerely,

Signature:
