Dear Sirs and Madam,

As president of Griffith Park Adult Community Club housed at Griffith Park Adult Community Center operated by LA Department of Recreation and Parks located in Griffith Park, I support the idea of keeping together the communities that touch the park in the legislative districts you draw. In view of the fact that currently the area is represented by three state Assembly members, two state Senators, and four U.S. Congress members, it would seem to be more manageable for an area with many common interests be represented by a few rather than more representatives.

Our Club with over 800 members represents a region of communities, rather than one neighborhood surrounding Griffith Park. We have common concerns of traffic, protecting Griffith Park's animal and plant environment, managing water resources, managing crime associated with a large area of wilderness-type environment and preserving recreation opportunities for all ages within the park. With one Assembly member, for example, addressing these issues would be more efficient and effective in terms of responding to the needs of all constituencies.

Thank you for consideration of this matter.

Sincerely,

Stephanie Vendig
