Subject: Keep Ventura County United

To: votersfirstact@crc.ca.gov

In the process of redistricting Ventura County should not be changed, Simi Valley should remain a part of Ventura County rather than becoming a part of Los Angeles County. The entire county is very interconnected, and as both a resident and college student at CSUCI in the county I believe it is in the best interest of the county and state to keep Ventura County's district lines the same.
