

April 25, 2011

Dear Commissioners,

I am very familiar with the redistricting process and I would like it if you would take my comments into consideration. I live and work in Simi Valley and I am very tied to the needs and wants of my community.

I have been a realtor for 30 years working throughout eastern Ventura County. I have many clients who come to me to help them buy or sale homes in each of the cities. I know firsthand that the residents who live and work in eastern Ventura County are connected and have a lot in common. It would be a mistake to separate these cities into different districts. For years we had to drive over to the valley for shopping, entertainment, doctor's appointments, and schooling, we now have all of this in Simi Valley, Camarillo, Thousand Oaks and Moorpark. As well as our own Simi Valley Unified School District, Police/Fire Departments and water district.

I ask that when drawing districts you be sure to include Camarillo, Simi Valley, Moorpark, and Thousand Oaks together in one district.

Thank you,

Jan Adams
