Hello,

It is my limited understanding that the California Citizens Redistricting Commission is considering whether to add Marin County into the District with San Francisco. We are a very different county with an emphasis on Rural and Suburban land use. Our similarities with Sonoma and Napa and Mendocino far out weigh our similarities with densely urban San Francisco. I am greatly concerned that our voice would be terribly limited if we had to compete with the many voices of San Francisco. I urge you to consider this boundary carefully. Also local elected officials are just hearing of this and the public notice has been insufficient for you to develop a sense of fair representation. Please send notices to all elected officials and local media contacts regarding meetings.
