Dear Commissioners,

We are writing this letter as members of the Pacific Coast Highway Task Force, led by Senator Fran Pavley and Assembly member Julia Brownley. The members also include representatives from the communities of Santa Monica, Los Angeles, Pacific Palisades, Malibu and **LA County, CalTrans**, the Sheriffs Dept, LA Police Department and the CHP.

Pacific Coast Highway is a vital transportation corridor for commuters, local residents and tourists. The transportation and traffic patterns are a major area of interest for the members of our Task Force in this area.

This PCH Task force has been invaluable in making the PCH safer, as well as more beautiful and accessible from all the feeder roads leading into it including the 10 Freeway, the 101 freeway, Olympic, Santa Monica, Wilshire and Sunset Blvds. **These corridors** are all major east west traffic corridors uniting the cities from West Hollywood, Beverly Hills to Santa Monica, Brentwood, Pacific Palisades and Malibu. The cross-mountain canyon roads, of Kanan Dume Road, Malibu Canyon Road, Topanga Canyon Blvd, Beverly Glen, Coldwater Canyon and Laurel Canyon are traveled daily by people who live and work on both sides of the Santa Monica Mountains and many use the PCH to cross those mountains to work and also visit our many beaches and cultural destinations.

Therefore, it is critical to keep in mind that all these communities are linked by the PCH. **It** also must include the valley cities of Agoura Hills, Calabasas Hidden Hills and Westlake Village because **residents of those communities use** the PCH every day as well.

We feel that we should all remain united as you evaluate the complex redistricting assignment before you. We urge you to consider our request to keep the communities mentioned above in one district.

Thank You,

Lou La Monte,
Malibu City Councilmember, Member PCH Task Force
Barbara Kohn,
President, Pacific Palisades Residents Association, Member PCH Task Force
Stuart Muller,
President, Via Mesa HOA, Member PCH Task Force
George Wolfberg,
