Subject: Keep Long Beach Together!

Message Body:

Long Beach is a unique community in Los Angeles County. Long Beach has worked hard to create a distinct community of close to half a million residents in the last ten years. Long Beach residents, workers, families, city employees, elected officials, youth and many more people deserve to all be in the same district for elected representation.

Long Beach has its own bus system, its own city council, its own newspaper, its own health department, its own home town high school rivalries and much more.

Keeping Long Beach together is important so that citizens have the opportunity to visit and know their state and federal officials without having to go to another county or region.

Please keep Long Beach TOGETHER!
