Subject: Redistricting problem  
To: votersfirstact@crc.ca.gov

Dear Commissioners,

Redrawing the district lines is an extremely important task, and i hope that you take into consideration my thoughts and comments regarding this issue.

I am a Simi Valley resident and I have important ties to my community. Eastern Ventura County is tied together both geographically and by many commonalities that each of the cities share. We share many of the same freeways and roadways that link our cities. We also share many issues in regard to our cities. I want to ensure that our common issues will be represented fully within government, and having the same government leaders will make sure that this occurs.

Thank you for your time and attention on this issue and I urge you to keep these communities of interest together.

Thank you,

Beverly Zeller
