Subject: Redistricting Boundries

Message Body:

I live in 90806 in Long Beach. I am chair of Central Neighborhood Advisory Committee and a member of Peace Garden. We have strived a long time to make this a working area where various cultures can work together. Now it is time to extend our Congressional boundries south, so that they include the Port of Long Beach and the seashore area which are currently listed in another county's boundries. I am of Hispanic origin and understand how much our current representative has done and is doing for our area, we only want to keep it that way and possibly improve it. Thank you
Jose M. Flores
