Message Body:

I am sure you have seen how our city has been gerrymandered in the past. Please look at the county boundary when considering where to put our city of 460,000 population. We want our port, El Dorado Nature Center, Atlantic Ave. Corridor, marinas, colleges and beaches fused together into one district. The natural boundary of the Los Angeles and San Gabriel Rivers is an important geographical designator and our whole city is family. Please reunite Long Beach.
