I live in Studio City in State Senate District 23. Please do not move us to another Senate District. We belong there along with other communities who are between the 101 freeway and the Santa Monica Mountains. We also have a lot in common with communities just the other side of the mountains as we are linked by the roads that go through them such as Lauren Canyon Blvd. I ask that you let us stay in the District with communities who have a lot in common with us. Thank you.

Connie Elliot
