Subject: My opinion on redistricting Sanger

Message Body:

Dear Redistricting Committee Members,

I relocated to Sanger California four years ago. I live in North Sanger and I can tell you that Sanger is on it's way to becoming a viable and prosperous town. Sanger is a growing diverse community that is changing at a rapid pace. Hwy 180/Kings Canyon has been under construction for some time, using Measure C funds, and will soon connect Fresno, Clovis and Sanger, as well as the mountain communities. 180/Kings Canyon is already developed into the Sanger area and construction is moving fast towards Trimmer Springs.

Sanger is the United States "Nations Christmas Tree City" and the "Gateway to the Sierras." Highway 180 is the road to the Sierras. The "Nations Christmas Tree" is located in the Sierra National Park and Sanger Chamber of Commerce has been leading a yearly seasonable Trek to the Nations Christmas Tree for 87 years.

I feel that North Sanger, North of Jensen Ave., should be one district with North Fresno (North of Shaw or Shields) Clovis, and encompass the mountain communities that includes Fresno, Madera and Mariposa counties, as well as the cities of Madera and Mariposa.

North Sanger has developed considerably more in the past ten years than South Sanger and will be actively developing tourist support business's along 180 and from 180 to Jensen. Sanger has always been largely agricultural and South Sanger, Reedley, Parlier, Del Rey and other adjoining communities are still primarily Agricultural. North Sanger is in a unique position to become a more business friendly area therefore bringing growth, development, jobs and opportunity to our whole town and surrounding cities.

I respectfully ask that your committee connect North Sanger as I suggest for the future good of Sanger and our neighbors in Fresno, Clovis, Madera and Mariposa Counties, and the cities of Madera and Mariposa.

Warm regards,
Toni Pacini
Sanger California
