

From: Jon Olson [REDACTED]
Subject: Geographic integrity

Message Body:

When Considering geographic integrity in drawing the lines, please prioritize basic units in the order listed in the constitution.

1. city
2. county
3. city and county
4. local neighborhood, or local community of interest

It is clear to me that cities must first be held together and only subdivided if their population is great enough to warrant multiple districts.

Likewise with counties.

sincerely,
Jon Olson
