Redistricting should bring Imperial County together with the Coachella Valley to form a more equitable 45th Congressional district. Imperial County and the Coachella Valley share issues of transportation (Palm Springs Airport, Route 86), agriculture, water, health, renewable energy (solar wind, geotherman, biomass) and development thereof, education and last, but not least, the Salton Sea. We share common demographics: ethnicities and race. We share land issues and development, housing issues and senior issues. We urge these two areas be brought into one district so our problems, our strengths can be joined, solved and built on.
