Dear Commissioners,

I was speaker # 11 in San Marcos tonight. There was much discussion about Carlsbad, Encinitas, Solana Beach, Del Mar, Rancho Santa Fe, Fairbanks and the Northern Part of the City from Del Mar to Carmel Valley. The association is that the Southern part of Carlsbad is in the San Dieguito High School District, and the Encinitas Union School District; Encinitas, Rancho Santa Fe, Fairbanks, North City from the Coast to Carmel Valley, Del Mar and Solana Beach are all in the San Dieguito High School District 9-12. Encinitas, Cardiff, Rancho Santa Fe, Del Mar and Solana Beach all have their own k-6 grade school Districts. Carlsbad, Encinitas and San Marcos all have the same Sewage Treatment District, Cardiff (part of Encinitas and Solana Beach) have the same sewage treatment district. Rancho Santa Fe and Solana Beach have water districts that are joint powers. The city of San Diego (North City) that is in the San Dieguito High School District provides sewer and water for both that area but also Del Mar.

Therefore you will find that most services are integrated in that area. The Paramedic district runs from Del Mar, to Encinitas. Del Mar and Solana Beach share fire chiefs and on and on. Because of that I feel that these area's need to be looked at as a integral part of one another.

Betsy Schreiber
