**Conversation:** redistricting

*To whom it may concern,*

*This matter is very important to our community. Our local economy, roads, water needs, schools, emergency services, etc., etc., are all intertwined with the other communities in the immediate area around us, not with the Imperial County communities. Our political relationships/ interests also need to stay connected with the communities in our immediate area. Communities with common interests, demographics, and similar needs and lifestyles. This allows our community to work together with the other communities close by on issues that will impact us all. Lakeside is too far away from Imperial County to be intertwined with it's communities the way it is with those that surround it in this area. Please do not try to align us with an area we are not connected to in any way.*

*Sincerely,*

*Joi Goodwin*

*Lakeside, Ca. 92040*
