Imperial County is desert, San Diego East County is Inland Mountain/Coastal. Two totally different climates and policies. Imperial is farming/industrial/Mexico. East county is Travel/Destination/Industrial.

People from East County do not go to El Centro for their needs, they go "DOWNTOWN". The building departments, courtrooms, etc., are not in El Centro. Nothing relating to East County takes place in Imperial County... Nothing! How about redistricting downtown to Imperial County.

Are You Kidding!

This is obviously a push from the "there is no life north of the I-5ers".

THIS IS A JOKE!
