Subject: boundaries

Message Body:

Hello,

Please consider moving the boundaries to include Amador County with El Dorado or Sacramento. We travel mostly to this area for business meetings, and to collaborate with local School Districts and large businesses. The smaller counties need the larger counties support, not to be connected to another smaller county.

I personally would Prefer a Senator with a different point of view. To grow a small County properly, we need a "bigger picture".

Thank you.
