Subject: Redistricting Antelope Valley
To: votersfirstact@crc.ca.gov

Hello,

The Antelope Valley Deserves One Voice. We are a geographically isolated community that has its own identity and culture. We deserve one voice to let our values be heard. There should be one Assembly District covering the Antelope Valley/East Kern area of the High Desert, bounded by the Tehachapi Mountains and the San Gabriel Mountains that includes Palmdale, Lancaster, Rosamond, Mojave, Boron and California City. The Antelope Valley has a unique economy that is supported by the aerospace industry and Edwards Air force base. It is very vital that our voice be heard lest we lose vital resources from the federal and state governments. We have one Antelope Valley mall, one Antelope Valley college, and one Antelope Valley high school district. It is very important to point these out because the college and the mall are hubs for cultural and intellectual diffusion. Therefore Economically and Socially the Antelope Valley is one. Please please please let us have one united voice in the assembly. In terms of the senate let us be joined with an assembly district from the south of us in the rest of the high desert and not to the west of us in LA or north of us in Bakersfield.

Thank you very much,
