Subject: California Redistricting

Message Body:
Members of the Citizens Redistricting Commission;

I am a 25+ year resident of the Chatsworth area of Los Angeles. I have deep ties to this community including all of my children having enjoyed playing baseball at Chatsworth Junior Baseball League where I was both a coach and long-time board member. My youngest son currently attends Chatsworth High School and our family has been a member of St. John Eudes parish for 25 years. I believe it is essential to maintain a sense of community. During my years at CJBL and as a member of SJE's, many of our families resided in the Simi Valley and Moorpark and even some from as far as Thousand Oaks. The communities of Chatsworth, Northridge, Porter Ranch and West Hills have much in common with the adjacent communities of Simi Valley, Moorpark, Thousand Oaks and, to some extent, Santa Clarita.

I believe it is essential to maintain a level of continuity of communities when establishing districts. For this reason, I believe keeping the aforementioned communities together establishes this continuity.
Thank you for taking the time to read this letter.

Warmest personal regards,
Chris
