Subject: Redistricting in Ventura County
To: votersfirstact@crc.ca.gov

Dear Commissioners,

I consider it my civic duty to be well aware of what is going on within my community. I am very familiar with the process of redrawing our districts and I want to make my comments known.

As you undergo the task of drawing new districts, I urge you to include the cities of eastern Ventura County together within one district. We share so many things in common, both geographically and morally. It would be a serious mistake to separate the cities into different districts.

Please take into consideration my thoughts and comments.

Thank you,
Debra Tash
