Subject: redistricting

Message Body:

My congressman Dana Rohrabacher has a district connecting a big swath of Orange County and a big swath of Palos Verdes by a very narrow strip of land through Long Beach and San Pedro. This insures that he is always reelected and makes me feel like I have no representation in congress at all. My neighborhood has nothing to do with his 2 big areas of assured votes and he does not represent the city of Long Beach at all. This is a district put together for one reason only, to insure the congressman's reelection. Please look into this issue when you are looking at how to redistrict California.

Thanks, Sydney Simon
