Subject: PERCENTAGE DEVIATION IN SIZE OF DISTRICTS

Message Body:

On April 28 the Commission apparently voted to allow deviations of up to 5% among legislative districts. This vote was unconstitutional, and disenfranchises voters. It is also an outrage because the vote was inspired by Maria Blanco, who is an attorney that has knowledge of redistricting law.

The Commission is greatly deviating from its purpose and should be disbanded. Supreme Court law requires no more than a 1% deviation among state legislative districts, but Blanco knows that. The rest of the Commission is being foolish, and is acting unlawfully.
