California Redistricting Commission,

I have lived in Fullerton for more than 30 years and I have owned a business located in Placentia for 25 years. As the redistricting is done, I strongly believe that Placentia and Fullerton as well as Brea should be left whole regardless of how new legislative districts are fashioned. The benefit of having just one legislative representative at each level in Fullerton, Brea and Placentia simplifies and keeps representation consistent and clear. These cities have enjoyed a symbiotic relationship for many years and will benefit from maintaining the status quo.

Thank you for your attention.
