Dear Commissioners of the California Citizens Redistricting Commission,

My name is Chris Thompson and I am a resident of Fullerton as well as a Trustee on the Fullerton School Board. I am writing to encourage your Commission to recommend that Fullerton be drawn within a single, cohesive election district in all respects. Fullerton is an amazing city with passionate residents. I believe that the vast majority of Fullerton residents across the political, cultural, racial, and socio-economic spectrum consider themselves to be Fullertonians rather than statistics. We value our residents character over income, color or political registration. Our interests in our city, schools, state and nation are tied together and I do not believe we wish to be separated by economic status or political leanings.

As we all seek effective government, excellent schools, and a safe and free community. I thank you in advance for respecting the inter-connectedness of our beloved town in recommending that Fullerton remain as a whole for the sake of our political values.

Sincerely,

Chris Thompson, Fullerton Resident and Fullerton School District Trustee

Chris Thompson
