Dear Folks-

I am writing not for my concerning redistricting will have on my home county, but what impact it will have on neighboring Mono County. I went to a group discussion on this issue and came away with only one thought, that being Mono County is totally misaligned with regards to the goals of the Citizen's redistricting Commission.

Mono County has absolutely no commonality that I see with the 25th Congressional District, and everything to do with the Eastern portion of the 19th Congressional District. The ethnicity composition, agricultural, recreational, and other concerns very closely align with the Mother Lode communities.

Therefore, it might behoove you to consider moving Mono County into the 19th CD. That would also align it with the State political districts.

I remain respectfully yours,

Domenic Torchia  
Columbia  
Tuolumne County
