We understand that redistricting is underway, and just want to comment that we hope consideration is being given to the size in miles and availability of access in roads in determining how the people are equally represented. We mean to say that it is much simpler to represent, say, the people of San Jose who are extremely more in number and more similar in nature than the people of a place like Lake County, where access is more complicated and a host more businesses and activities need to be considered by the representative. Feel free to contact us if you have questions regarding this comment. Thank you for your attention.
