Subject: determining Congressional, State Assembly and State Senate

Message Body:

I am a resident of Fort Bragg in Mendocino County. I'm following the Commission's work. Our Congressional, State Senate and Assembly districts are similar.

This has made it possible for us to have more input on all issues of commonality. It brings us together on matters of environmental protection and our quality of life. If the district boundaries are changed from the historical north-south to east-west, will change networks that have developed thru many years.

Please take into consideration the natural transportation and industry patterns and leave the North Coast Counties in the same Senate, Assembly and Congressional districts.

All the North Coast counties are linked by the 101 corridor. There are no direct roads to the inland suburban areas and they are separated from us by the coastal mountain range. All the North Coast counties are within the Coastal Commission Zone and all are interested in ocean and marine life.

Thank you for your consideration
Edward M. Oberweiser
