Conversation: One Single District

Dear Citizens Redistricting Commission Manager:

I am an avid hiker and ever though there exists an appropriate area for required development as approved through our representative constitutional procedure, we have to take the steps to assure the continued preservation of the Santa Monica Mountains. I am concerned that redistricting may adversely affect their preservation.

Thus, the State of California politicians of both political parties need to create a single district of the Santa Monica Mountains NRA as the best way to preserve this specific area.

Would very much appreciate your support.

Thank you for allowing me to express my viewpoint on this important issue.

Very truly yours,

Allen Frankel
