Conversation: Tri-Valley Community of Interest Testimony

I am a resident of Danville. It is important to me that Danville share legislative representation with the other communities in the Tri-Valley because, while we have a range of social and economic levels, we share commitment to the improvement of our residential, business and open space environment and betterment of all or our constituents.

I recommend the Tri-Valley cities of Danville, Livermore, Dublin, San Ramon and Pleasanton be kept together in redistricting. To have enough population to make new districts, our community should be joined with similar towns, such as Walnut Creek and Lamorinda, by going further north into the valley along the main transportation route of Highway 680.

Sincerely,
Norm Rhett
