Subject: Coastal geography & Community

Message Body:

Please consider the importance of including Del Norte County within the same lines as similar coastal communities, as our rural needs to take care of place are linked and meaningful.

Although the population in Del Norte and Humboldt is less numerous than inland areas, our environmental natural features are unique and valuable to the common good of California. Sensitive stewardship via voting is essential.

Coastal population centers are linked via Highway 101 and this helps create understanding and problem solving.

Del Norte should not remain tied to inland lands with different concerns, please change the lines that don't respect the geography.

Thanks to all 14 line-drawers
