

Dear Commission,

I spoke before you last Friday and wanted to also submit written testimony on how the districts for Central Orange County should be drawn. The center part of the county is a predominately Latino, immigrant working class blue collar community who would be best served by having the area continued to be united in the same district, as they have for the past 20 years.

This area is the entire Cities of Santa Ana and Stanton, the flatland area of Anaheim (west of Tustin Ave.) , southern Fullerton(south of Chapman and Malvern), southern Orange(south of Collins St.), east Garden Grove (east of Euclid) and west Tustin (west of Newport Ave north of the I5 and west of Red Hill Ave. south of the I5)

These areas can be divided into roughly two Assembly District (one centered in Santa Ana and the other in Anaheim) and then combined into one State Senate District. The Congressional District would not be able to be large enough to encompass this entire area of interest, but would be most effective being centered with the entire city of Santa Ana, east Garden Grove and the flatland area of Anaheim. These areas have a very similar population who are connected by national origin, language(many are Spanish/English speakers).

In addition, just west of this area is a large Asian community, in fact it is the largest concentration of Vietnamese people outside of Vietnam. For too long this community has been divided among multiple districts, without a real voice in Washington or Sacramento to represent them. The ideal district for them would be centered around their community in Garden Grove (west of Euclid), Westminster, Midway City and Fountain Valley.

I do hope you take these proposals into consideration when creating the maps and ensure these communities of interest are properly represented when the maps are created. Thank you. Attached is supporting data and maps to guide you.

Sincerely,

Claudio W. Gallegos
