**Conversation:** Redistricting . . . . .

Dear Commissioners,

I have the privilege of living in Simi Valley and serving on the Ventura County School Board.

The process of drawing new district lines is an important one and I am writing to ensure that my thoughts and comments are heard regarding this process.

During the last 30 years of living in Simi Valley I also had the privilege to serve eight years as a Simi Valley Planning Commissioner. During those years I became aware of how much the communities of Simi Valley, Moorpark, Thousand Oaks and Camarillo shared the same values regarding quality of life issues.

The residents and business owners of Simi Valley share a lot of the same values and ideals that the residents of eastern Ventura County do.

I would hate to see Simi Valley lumped into a different district.

The residents and business owners could not be more different and it would be a serious mistake.

It is important to realize that Simi Valley and the other cities of eastern Ventura County share so much and should not be separated.

When drawing the new districts, I hope that you will include Simi Valley, Moorpark, Thousand Oaks, and Camarillo together.

Thank you,

Dean Kunicki

Ventura County Board of Education, Board Member
