Conversation: re-districting

My name is Mrs. Robert M. McArtor (Marie). I have lived in Ridgecrest, Kern County since 1952. Removing us from Kern County to an affiliation with Lancaster or Los Angeles would be disastrous. Number one – we would be in the far northeastern part of the district and know from experience that we would be neglected except for tax purposes. Number two - this area is home to a very vital function of the military and would suffer if moved into a new district. Number three - our total life style is far more compatible with the area in which we are currently, than it would ever be with the proposal to move us to either of the areas being considered. This is a relatively isolated area, however, it is MUCH closer to Bakersfield than it would be to Lancaster or Los Angles. In short – we are perfectly content to remain in our current district. Please take our wishes into consideration.

Thank you for your consideration,

Mrs. Robert M. McArtor
