Subject: consider school district boundaries

Date: Wed, 11 May 2011 15:59:47 -0700

From: Diane Cary [REDACTED]

Hello,

We live in an unincorporated area of Solano County, just across the county line from the town of Winters, which is in Yolo County. We shop and eat in Winters, our daughter went to school in Winters, we have a Winters address and phone number, we are in the Winters School, Library and Fire Districts, but our congressional district is different. Our neighborhood totally identifies with Winters and not with the congressional district, which runs in a narrow little band all the way up into the Sierras.

We suggest that you consider school districts when you draw those very important lines.

Thanks for all your hard work.

Best regards,

Keith and Diane Cary
