Conversation: District 2

Dear Citizens Redistricting Commission,

With respect to any proposed changes to District 2, I would implore you to make any needed changes by adding or deleting counties (I think it advisable to keep counties intact) on the southern portion of the district rather than incorporating ANY counties east or west. I take this position due to the fact that the coastal mountain range is natural boundary not only physically, but socially and politically as well given the diverse views and ways of living on the coast versus inland.

Ed Ward
