Conversation: Redistricting is a redistribution of wealth scheme...

Sorry but I believe this is just another political scheme to redistribute the wealth of the people as in Obama Care. And another way to set lines for voters and make it easier for the liberals to place population in areas for the benefit of socialist schisms. We don't need to be placed in any new district, leave it well enough alone, it will most likely cause us to pay even higher taxes in this new district. All the politicians want to do is justify the fact that they have a job and are doing us a favor, when in fact it is to cause hate and discontent amongst the taxpaying workers of America. Leave it all alone, politician poly meaning numerous or many and tic is a blood sucking insect.
