Message Body:

The most important work the commission can do, in my opinion is to make sure that California no longer has "safe districts" where representation is certain to go one party so the nominee does not need to pay any attention to what the citizens in his/her district want, where lobbyists contributions to a candidate's campaign override voters' concerns. Your work is so important. Thank you for giving so much of your time and energy to redistricting fairly for California.
