Subject: Restoring the democratic process

Message Body:

The present system was setup by the elected officials to further their entrenchment into their jobs and is contrary to the democratic process.

The establishment of new lines should be a simple one based upon geographic principals. There should be no islands or separation between districts like we now have in Waxman's district, an obvious jerrymander .

The next step is to do away with the the influence peddlers that by our votes.
