

To Whom It May Concern:

- Do not combine our Coachella Valley Congressional representation with that of Imperial County!!

- Do not dilute our Congressional representation away from our CV's distinctive tourism economy, growth - opportunities and challenges to focus on a rural, agricultural region!! -

We are also distinct as the fastest-aging population in the state which will have its own ramifications. Our "Community of Interest" is completely different from Imperial Co's and we should NEVER be combined with them. They should have their own good representation that can focus fully on their own issues and opportunities.

Thank you.
