To: The California Citizens Redistricting Commission

I am a resident of Temecula, a recently retired attorney and a former elected official (in Alexandria, VA, 1970-1973). I have lived in California since 1973. I am also a recently elected Democratic delegate from the amazingly meandering and elongated 66th Assembly District. Like several of your speakers, I was an applicant for selection to the Commission who survived the first round.

I had an opportunity to watch the Commission work at the Cal State San Marcos hearing last week. **Impressive!!**

Good luck with a challenging (but fun) job.

In connection with your redistricting activities, I would offer only the following suggestions for the record:

1. If at all possible, please divide Riverside County into three congressional districts. The Riverside County population of 2,189,641 is perfect for that kind of single county division. It should be noted by the Commission that Riverside and San Diego Counties do not appear to have a great deal in common with each other.

2. Also, please include **ALL OF** Temecula, Murrieta and Wildomar in the same congressional, assembly and senatorial districts. In addition to supporting testimony which may already have been provided, it should be noted that these communities share the same media market (i.e., radio, television, newspapers), a major regional shopping facility (Promenade Mall), and high school sports leagues and rivalries. These communities actually appear to function as extensions of each other.

Thanks for your consideration – and for your public service.

CLARIFICATION

To: The California Citizens Redistricting Commission

In connection with the below message, please note that I am an elected Democratic **Party delegate** – **not the elected assemblyman** from the 66th district.

Thanks.
