Subject: Fair Distric Boundaries for S. Orange County

Message Body:

I am a resident of San Clemente, in south Orange County, CA. We are represented by a U.S. Congressman from Riverside County and a CA State Senator from San Diego County. We have no representation by our two U.S. Senators who both reside in San Francisco, CA. That leaves only one representative who actually knows about, and is concerned about south Orange County - our State Assemblywoman.

Geographically, San Clemente is adjacent to the cities of Dana Point and San Juan Capistrano. These three cities are by all definitions a Community of Interest. We have similar living stanards, work opportunities and shared media.

We never hear about our out-of-County representatives, unless we search them out. Our Orange County newspaper does not have much, if anything, to say about them either. I don't even know the name of the San Diego State Senator assigned to us, although I did go to his website once.

Riverside County is not adjacent to us, we are separated by a mountain range - the Santa Ana Mountains - and the Cleveland National Forest. We are separated from the cities in San Diego by the thousands of acres of Camp Pendelton which begins at our southern border. How does this possibly make any sense? We have nothing in common with Riverside or with Oceanside. Nothing. Our issues are not theirs, and visa versa.

We are isolated from all but one representative. This is not fair, not sensible, and certainly not conducive to getting involved with the political process.

Surely, these three cities can be combined with other South Orange County cities to make the numbers work in forming a district.

Thank you for your attention,

Peni Woehrman

Message Body:

For the 36 years that I've lived in Capistrano Beach, my real community also consists of other cities in south Orange County. My daughter went to schools in San Clemente. I surf in Dana Point and San Clemente. I dine in Lag because they are my community; yet there has always been a disconnect between where I live and the elected government.

South Orange County should be defined as somewhere south of Irvine or Lake Forest; boarded on the east by Cleveland National Forest (which should be split at the top of the mountain range); the south by Camp Pendleton; the ocean to the West; and upcoast to include Laguna Beach. And it would be logical to reflect this common sense approach to forming district lines.una Beach. My doctors are mostly in Mission Viejo. I visit the theaters in Aliso Viejo. I care about all of these cities

Citizens Redistricting Commission,

I live in San Clemente, Orange County, CA. When drawing the maps for redistricting please consider that San Clement is a part of South Orange County. We share interests and needs with our neighboring communities of San Juan Capistrano, Dana Point and Laguna Beach, not San Diego County or Riverside County. We need to be represented by a South Orange Count representative.

Please help San Clemente's voice and needs be heard along with our neighboring communities.

Thank You,
Bettye Hayes - 38 year resident of San Clemente.

Message Body:

We in San Clemente and neighboring cities have been "screwed" by the lines which were drawn 10 years ago. The natural boundaries in this area are the ocean and Camp Pendleton. Please keep the beach cities of southern OC as a community of interest in drawing the lines, as gerrymandering us into Riverside or San Diego districts leaves us without effective representation.

Message Body:

I am sick and tired of having a Congressman who is out of touch with his district.
My community is San Clemente, Dana Point and San Juan Capistrano, NOT RIVERSIDE!
Please redistrict so we can be rid of this man who consistently makes the CREW list of crooked congressman!
