Subject: Bellflower: South L.A. county

Message Body:

Hello, i was in the meeting held in Long Beach. I was the second to the last or close to it on speaking. My point was to have you put bellflower with lakewood, cerritos, downey, la mirada and up the L.A. county line. Bellflower has a school district with Lakewood and a large Asian population and Anglo community like the previous mentioned cities. Bellflower also has a significant percentage of high school and college graduates in line with the previous mentioned cities. Bellflower has a low percentage of residents born out of the country according to the L.A. Times report. also in line with the previous mentioned cities. Bellflower is safe like the previous mentioned cities. These are issues that are the opposite with the cities that are in the 50th assembly district for you to get an idea of the area i am talking about. The assembly district had just picked a new assemblyman but i did not even see one sign of anybody running, this is a clear sign that Bellflower is being di!

sinfranchised since they don't need the support of bellflower, they have the necessary votes in the different cities that are currently mentioned. I have called my assembly men office multiple times but they are always more interested with issues that have to do with the cities that are in the 50th assembly district. So in closing Bellflower's multi ethnicities(anglo, hispanic, asian) would be equally represented with the previous mentioned cites and would restore the original boundary line that was in place back in the 2000 before the gerymandering of the district that had Bellflower, lakewood, cerritos in the same assembly district for many years in the past and thus creating a strong area of common economic interest. If you have any questions please don't hesitate to contact me or even the city manager in Bellflower. I would be more than happy to answer any questions that you may have. Thank you and god bless.
